# School Visit Program

## Dear Principal Teacher,

Melbourne Victory Football Club offer a range of school visits, while we are also working towards developing longer-term health and wellbeing initiatives to support bespoke school and student needs. Key messages delivered by Victory role models focus on building skills for learning, life and work and include;

- Teamwork, communication and leadership skills
- Building and maintaining positive relationships
- Improving resilience, self-regulation and dealing with conflict
- Physical literacy, motor skills and the value of movement
- Mental, emotional, social, and physical wellbeing.

While focusing on the personal and social development of participating students, Victory's aim is to support our nation's aim of increasing the number of boys and girls that are physically active and participating in sport within their local community.

If you would like to book a school visit from one of our Community Coaches, or if you are interested in supporting the development of our longer-term projects, please get in touch on the details below.

Kind regards,

**Harley Hamdani**  
Community Football & Education Manager
